RE: Product safety statement – Firecore TVC-Core Vermiculite Board (no asbestos)

We are aware of recent concerns in the industry regarding asbestos in certain building products. This is a matter we take extremely seriously, and we want to reassure our customers and stakeholders of the safety of our products.

We confirm that our **Firecore TVC-Core Vermiculite Board contains no asbestos.**

To ensure ongoing compliance and safety, we conduct periodic **independent testing** through NATA-accredited laboratories using recognised asbestos analysis standards. All results to date have confirmed there being **no asbestos detected** in our TVC-Core Vermiculite Board. A copy of a test certificate to verify this is available upon request.

Should you have any questions or require any further information, please do not hesitate to contact me at adamzhang@firecore.com.au.

Sincerely,

Adam Zhang
Managing Director
Firecore Pty Ltd
